

**Speech of the Permanent (State) Secretary, MFA of the Kyrgyz
Republic, Mr. A.Isaev
At the International Conference on Afghanistan,**

**Esteemed Chairperson,
Distinguished delegates,
Ladies and gentlemen,**

Let me express my gratitude to the Government of Germany for the hospitality and the excellent conditions provided for our Conference's work.

In my speech I would like to note a few points,

We support a cautious and gradual withdrawal of NATO coalition forces and only after solving the key task, actual strengthening of the Afghan Army and police.

We consider that in providing assistance to the Afghan people in building a peaceful life an efficient cooperation of the NATO with international and regional organizations such as SCO, CSTO and OIC would play important part.

Kyrgyzstan is interested in continuing the UN Strategic Program for Central Asia to combat drug trafficking and international crime.

My country is ready to actively participate in the implementation of a unique energy project CASA-1000 that will allow Afghanistan to get cheap electricity and develop its national economy.

In conclusion, I express hope that the decisions of the Bonn conference will allow the Government and the people of Afghanistan to get necessary support in combating terrorism and promoting peace and stability in their country.

Thank you for your attention.
